Family Health Centers
LONG ISLAND FQHC, INC.

10TH ANNIVERSARY
2009 - 2019

Your Health • Our Mission

Celebrating 10 years of service to the Long Island Community

Close to Home - Far from Ordinary LIFQHC, Your Neighborhood Healthcare Partner

The Long Island FQHC, Inc. prides itself on participating in the health, well-being and growth of each of our communities... because we're members of the community too! Our health centers and our staff have pride, a presence and loyalty to each community. It is where we work, live, raise families, shop, go to school and pray. It is where the concerns of the community are our concerns as well.

The 2018 Annual Report highlights our commitment to our neighbors. Our contribution to the community is to increase access to comprehensive primary care and preventative health care and to improve the health status of the community, especially for the underserved and vulnerable, in a financially responsible manner.

In the past year, we were able to expand and renovate health centers in all our neighborhoods with the help of state funding and grants. We converted two locations to Federally Qualified Health Centers (FQHC). One location is situated in Oceanside and the other in Belmont Park, which is primarily for the 2500-3000 individuals who work and live on the racetrack. We purchased state of the art medical equipment and hired and retained exceptional medical and support staff trained in leadership, safety and customer service. We also had our first full year of implementing the tenets of Hardwiring Excellence*, a how-to guide for creating and sustaining a culture of service and operational excellence.

We consistently concentrate on quality and improved customer service for our constituents and in 2018 we have had some impressive accomplishments. We now have fully operational call centers in our 5 main locations to ensure a prompt response to patient phone calls. Our patient satisfaction scores from each Health Center increased in 2018. Our Healthcare Effectiveness Data and Information Set (HEDIS) performance measurements met or exceeded many of our benchmarks. We also were awarded the Top Quality Award from Health First Health Plans. Year by year, our efforts are showing measurable progress for our clients. We will continue to research and implement innovative ways to advance our Healthcare delivery, offer more needed services and implement systems that have a positive impact on the health of our neighbors. We are committed to continually enhance our organization and provide exceptional comprehensive care in a most caring environment.

The New York State Delivery System Reform Incentive Payment Program (DSRIP) afforded us the opportunity to educate our staff and institute processes in preparation for a successful shift to Value Based Payment (VBP) contracts with our Managed Care partners. VBP is a service model where health services are covered based on the quality of care provided, not the quantity of services provided. This model provides standards to ensure the best outcomes for patients and to make patient care experiences better.

Thanks to your ongoing support and enthusiasm, 2019 will mark our 10th anniversary of service to the residents of Nassau County. We are proud of the strides we have taken despite and because of the ever changing atmosphere of the health care industry. Our future is just as exciting as our past. We will be launching health centers located within local high schools and enlarging the Roosevelt Health Center to include additional dental, OB/GYN and pediatric suites and an on-site pharmacy.

We hope you can join us on our journey as we continue to learn, grow and explore all that we can do collaboratively to be your Neighborhood Healthcare Partner.

Be well

David Nemiroff, LCSW
President and Chief Executive Officer

* *Hardwiring Excellence by Quint Studer 2012*

Salutations,

I have served as a member of the Board since 2014 and as its Chairman since July of 2018. I am particularly honored to serve on this Executive Committee, which, for the first time in our history, is comprised entirely of members who represent and utilize all LIFQHC health centers.

It is empowering to know that the LIFQHC is not only receptive to the concerns and ideas of their consumers, but actively seeking solutions for the advancement of the health centers and services for the community. More than half of our Board members are consumers who represent the health center location where they receive services. They bring a unique and valuable perspective to the table, clearly representing the diversity and needs of the patient population.

During my tenure on the board, LIFQHC has launched many new programs, opened new locations and renovated and upgraded many of our sites. Among the new programs are WIC (Women, Infant & Children) nutrition services, care coordination and optometry. We now have a call center that answers the phones, routes the calls and ensures calls are handled. Our clinical measures of quality and health improvement as well as patient satisfaction scores continue to rise. During 2018 our Outreach team participated in 220 community events providing meals, a range of screenings, health education and positive interaction in the communities.

2019 is off to a good start with a long awaited 3 million dollar grant being awarded from the State. The grant funds have been allocated for the purchase of our Oceanside facility, the expansion of our dental services in Elmont and to enhance our reach into the communities with a Mobile Vehicle outfitted with 2 exam rooms and handicap accessibility. We are in the process of completing renovations to our Roosevelt health center where we have added an OB suite, additional dental suites and a pharmacy for use by our patients. We also look forward to the completion of the exterior façade at the Elmont health center. Both the Elmont and Roosevelt locations will have operational emergency generators by year's end.

Our team of talented and committed professionals continues to excel at bringing the finest health care available to our underserved communities. To further reach out and positively affect these communities, we continue to strengthen our bonds with governmental and private agencies. We remain optimistic for 2019.

All the best,

Frank Piscetelli
Chairman

2018 Accomplishments

- Provided over 152,000 encounters, the most encounters in LIFQHC history
- B.E.S.T. Health Center located at Belmont Race Track became an FQHC as of February
- Awarded a 2017 Top Quality Performer by Health First Managed Care Organization
- 340B program and ProAct Pharmacy Benefit management
- Our Oceanside location is now an FQHC as of August
- For yet another year, the graduating family medicine residents each got a perfect score on their boards
- Participated in United Healthcare *My Connections* program for chronically ill, high-cost adults. We were invited to present our findings both locally in NYC and nationally

Community Support Services

- We provided over 220 outreach events, including, vision, dental, blood pressure screenings and health fairs
- We distributed over 1,000 Metro Cards to ensure transportation to our health services for our patients
- 13,809 Patient Activations Measure Surveys completed to date, giving us an indication of the patients' understanding of their own health care
- We served 2,374 lunches during the summer lunch program and through ongoing initiatives with Island Harvest to provide food when needed

In Memory of Sarah Forde

Sarah Forde served as representative for the Roosevelt Health Center on the LIFQHC Board of Directors from 2015-2018. Her passing in 2018 left a significant void on our Board. Sarah was a strong advocate for the health and well-being of the clients who received care at the Roosevelt health center as well as her community as a whole. She was lively, affectionate, outspoken and committed to her role on the board. We will miss her.

LIFQHC History

In July 2009, the NuHealth Board of Directors at Nassau University Medical Center unanimously approved a co-applicant agreement with the Long Island Federally Qualified Health Center (LIFQHC) board to become the first FQHC in Nassau County. This designation fulfills a dream of healthcare advocates who have pressed over the last two decades to provide greater access for the 33 medically underserved communities in Nassau County. This designation continues to address the health needs of vulnerable populations, enhance services and hours of operation, obtain 340B reduced prescription pricing, and assist quality improvement through governance by a local community board, with consumers having a significant role, giving us the ability to also participate in the federal malpractice programs.

Our Mission is to increase access to comprehensive primary and preventive health care and to improve the health status of the community, especially for the underserved and vulnerable, in a financially responsible manner.

Our Goal is to better address the needs of our communities and become recognized as the premier ambulatory program on Long Island. We implement the Quadruple Aim Model to ensure better health outcomes, improved experience of care, reduced overall cost and improved workforce satisfaction.

- **Affordable services for all patients:** We aim to provide every Long Islander with access to primary and preventive health care regardless of income, residency, age, sexual orientation or immigration status.
- **Accessible care:** Each health center is conveniently and centrally located for easy access by car or public transportation. Transportation is available when needed.
- **Professional and culturally sensitive environment:** The LIFQHC prides itself on respectful, quality health care with special attention to the underserved. The quality and commitment of our doctors, specialists and support staff equal that of other thriving health care facilities. Our trained staff coordinates and oversees each patient's access to all of our health services and ensures that each patient's unique needs and preferences are assessed individually and appropriate recommendations for care are provided.
- **Community Champions:** The LIFQHC works to include and participate in the communities we serve. We recognize that each community has its own distinctive culture, goals and needs. We encourage patient and community engagement to assist us in being sensitive and alert to the necessities of each community.

FOLLOW OUR TIMELINE OF ACCOMPLISHMENTS OVER THE LAST 10 YEARS

- * First Meeting held to discuss the Federalization of NHCC's (Nassau Health Care Corporation) Community Health Centers
- * Documentation submitted to the Department of Health regarding Nassau County Health Needs
- * Awarded NYS Certificate of Incorporation - Hempstead serving as the Primary location
- * Co-applicant agreement between LIFQHC and NUMC is signed
- * Executive Director and Board of Directors selected
- * Tax Exempt Status approved

Long Island FQHC 2018: Moving Forward

We made the most of every minute!

- Registered 2,388 new patients!
- Our physicians delivered nearly 400 babies!
- Converted Belmont Park (BEST) location to a Federally Qualified Health Center
- Purchased state-of-the-art medical equipment for several facilities
- Completed our first full year of implementing the tenets of Hardwiring Excellence
- Saw increased patient satisfaction scores from all Health Centers
- Met or exceeded performance benchmarks
- Awarded the Top Quality Award from Health First Health Plans
- Sponsored the Roosevelt Farmers Market at the Roosevelt location

2018 Behavioral Health Department

Expanded in 2018, our Behavioral Health Department (BH) had over 8,154 visits and added 5 clinicians and a new director to meet the growing need for services. As part of our mission to treat the “whole” patient, all clinicians work collaboratively with the Behavioral Health department to identify patients who may show criteria for a depressive disorder. In 2018, we conducted 54,000 screenings for depression with over 2,300 referrals to the Behavioral Health department for additional assessments.

Test of Variables of Attention (T.O.V.A.) software was also introduced to provide objective measurements of attention and inhibitory control. The data aids in the assessment and evaluation for those with attention deficits, including attention-deficit/hyperactivity disorder (ADHD).

TESTIMONIAL FROM ROSE MUIR

“I have known and enjoyed being taken care of by Dr. Nester. He reminds me of my husband and my son. He is always pleasant, happy and treats me well”

Ms. Muir has been a patient of Dr. Matthew Nester, podiatrist, for over 14 years. She is a retired RN who was trained at Jamaica University, West Indies and employed by NYS at Rikers Island for much of her career.

2010

- * Federally Qualified Health Center look-alike Approval by NYS Department of Health
- * Name change from LIFI to Long Island FQHC, Inc.

Quality Dashboard Annual Comparative

The Long Island FQHC is focused on providing high quality, equitable, and evidence based health care across the health care continuum. Our quality targets are based on nationally recognized benchmarks and standards of care. Our metrics show continuous improvement from 2016 to present, with some close to or fully exceeding benchmarks identified by the Healthcare Effectiveness Data and Information Set (HEDIS), a tool used by more than 90 percent of America's health plans to measure performance on important dimensions of care and service, and the 2018 Quality Assurance Reporting Requirements (QARR).

	Target	2018	2017	2016	2015	
Diabetes	Diabetic A1C Testing	90%	88%	86%	86%	75%
	Diabetic A1C Control (<7)	40%	37%	37%	37%	31%
	Diabetic A1C Control (>9)	16%	37%	37%	37%	45%
	Diabetic LDL Control (<100)	50%	42%	38%	37%	15%
	Diabetic Dilated Eye Exams	65%	22%	25%	24%	19%
	Nephropathy Screening	85%	89%	88%	90%	57%
Hypertension	Hypertensive BP Control	61%	63%	60%	57%	57%
Pediatrics	Childhood Immunizations (by Age 2)	86%	56%	46%	42%	39%
	Lead Screening	85%	90%	91%	82%	68%
	Dental Sealant	28%	27%	18%	31%	27%
	Well-Child (3-6 yrs)	83%	73%	76%	66%	67%
	Well-Adolescent (12-21 yrs)	69%	66%	68%	60%	54%
OB/GYN	Cervical Cancer Screening	70%	60%	61%	44%	48%
	Chlamydia Screening	69%	79%	76%	75%	41%
	Breast Cancer Screening	76%	58%	57%	36%	48%
Generic	Asthma Pharmacologic Therapy	75%	86%	86%	95%	91%
	Pneumo Vaccination (>65 yrs)	90%	65%	66%	69%	65%
	Colorectal Cancer Screening	76%	42%	30%	22%	16%

* Hempstead, Roosevelt, Westbury and Elmont locations transferred to LIFQHC Tax Id
 * Farmers Market hosted at the Roosevelt Health Center

2011

Consumer Assessment of Healthcare Providers and Systems (CAHPS)

How do we know what our patients want and need? We ask them! The best way to grow and succeed is with some straightforward input from our patients and our communities. We use national survey data as a benchmark to measure our patient experiences.

In the three years since the initial collection of comments and suggestions, we responded to our patients by making upgrades and modifications to our sites, processes, policies and staff training programs. We have also added locations and much needed services, and have a more participatory presence in all of our communities. We are proud that many of our satisfaction scores have exceeded our 2018 goal through the dedication and determination of our staff.

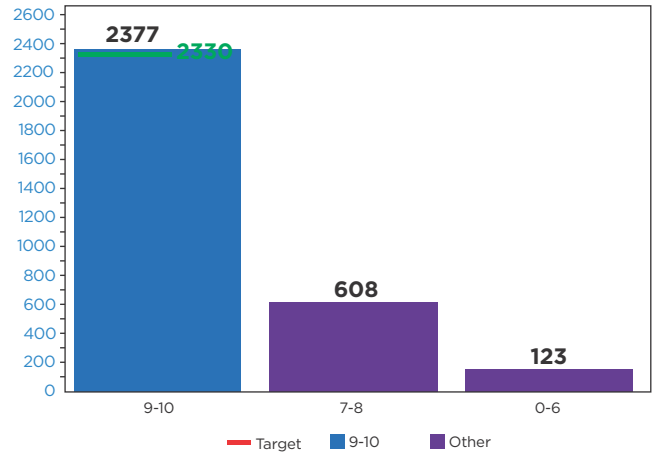

TESTIMONIAL FROM KERRI TOBIN

“I didn’t know what had happened to my foot. Dr. Nester diagnosed my injury and has been my podiatrist ever since. I have absolutely no complaints about his care”

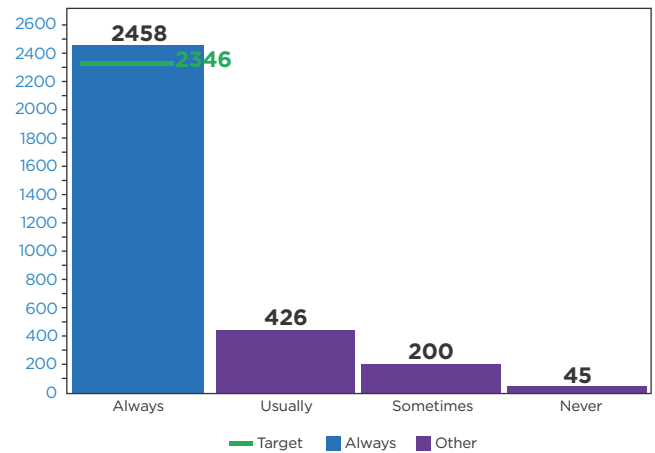

Mr. Tobin served in the Gulf War 15 years ago. His foot injury from the war brought him from Suffolk County to receive surgery and services from Dr. Nester.

Grants 2018

CRUCIAL CATCH GRANT

The NFL (National Football League), the American Cancer Society and the LIFQHC collaborated in hosting a community-wide event committed to the fight against cancer. Crucial Catch stresses the importance of screening for multiple types of cancer, allowing for early detection and risk reduction.

SUNY NASSAU COMMUNITY COLLEGE WORKFORCE TRAINING GRANT

Grant funded customized on-site training programs in Emotional Intelligence and Hospitality in Healthcare to supply our staff tools and techniques to improve the overall client care experience.

NYS WIC (WOMEN, INFANTS AND CHILDREN)

WIC's goal is to improve the health and nutrition of moms and kids. Pregnancy and early childhood are among the most important times for growth and development. WIC services are offered in 3 of our sites.

TEACHING HEALTH CENTER GRADUATE MEDICAL EDUCATION (THCGME)

The THCGME program supports residency programs in family medicine in community-based ambulatory patient care settings. The LIFQHC hosts 21 residents at our sites. The seven 2018 graduates can boast of a 100% pass rate on their medical boards.

FEDERAL AND NYS FUNDING FOR FEDERALLY QUALIFIED HEALTH CENTERS

As a community-based organization, funds are provided for us to deliver comprehensive primary care and preventive care, including health, oral, and mental health/substance abuse services to persons of all ages, regardless of their ability to pay or health insurance status.

DAUGHTERS OF WISDOM MISSION GRANT

The Daughters of Wisdom concentrate on major areas of injustice in our nation and worldwide, especially as they affect women, children, the marginalized, and the environment. The grant funds were used to host nutritious cooking classes for LIFQHC WIC participants.

PREP (PRE-EXPOSURE PROPHYLAXIS)

Funding provided as a means to prevent or control the spread of HIV infection or disease. Community counselors for the P.E.O.P.L.E. (pre-exposure, outreach, prevention and lifestyle education) project are present at community events, providing information and education about the project.

HER TURN

The LIFQHC utilized this grant opportunity to empower at-risk individuals in the Village of Hempstead and surrounding communities. Working primarily with minority females, HER TURN offers women the opportunity to better both themselves and others through the creation of a community network.

* Launch of Freeport Health Center as "LIFQHC South Ocean Care"

2013

Our Growing Staff 2018

Our staff grew to 343 members by year-end. New employees brought us multiple professional talents, including optometry and gastroenterology. We expanded our call center staff to respond to the large telephone call volume and added to an in-house janitorial staff to ensure daily and continuous cleaning throughout all our sites.

3rd Annual All Staff Meeting

The All Staff meeting held in June at Roosevelt High School used “Jeopardy”, a parody on the Jeopardy game, to engage all attendees. Teams tested their knowledge on questions related to LIFQHC policies, processes, and mission. The lively competition generated laughter and team spirit.

S.E.T. (Staff Engagement Team)

Staff shared fun and camaraderie through an off-site bowling event, a Paint & Sip party, an Employee Recognition Lunch for employees that had received Employee of the Quarter, Shout-outs, and tokens of appreciation.

Workforce Training

The expansion of customized online trainings through our Learning Management System allowed ease of learning and development lessons for employees.

- * Westbury Health Center completes renovation
- * Dental services added at specified health center sites
- * New Executive Director and Executive team employed
- * First year participation in National Health Center Week
- * LIFQHC participates in the NYS DSRIP 5 Year Health Improvement Incentive Program

National Health Center Week

The LIFQHC went all out again this year to acknowledge and celebrate National Health Center Week. Community members, patients, staff, and state and local government representatives joined us in promoting healthy habits for our communities and honoring our **Heroes in Healthcare**.

2018 Employees of the Quarter

1st

MIUREL GIRON
Care Coordinator

2nd

ANNY VICIOSO
Medical Assistant

3rd

SIMON CHIOU
IT Support Specialist

4th

KAYLEEN RODRIGUEZ
Call Center Analyst

- * Population Health services expanded
- * Earned 2nd place in the National Health Center Week promotional video

2015

In September of 2018, the LIFQHC was recognized as a **Top Performing and Most Improved FQHC** for the 2017 Healthfirst Quality Incentive Program

Community Outreach

The LIFQHC participated in over 220 community events. Highlights include:

- Summer Food Program – 2,374 meals served
- NFL & American Cancer Society Crucial Catch Day events at five sites with 13 mammograms completed that day
- LI Cares Mobile Food Distribution partnership
- Roosevelt Farmers Market partnership hosted at the Roosevelt Health Center
- Hofstra students produced five infomercials promoting our services, utilizing our staff and locations in each vignette

Identifying GAPS in Health Care

Tracking data has allowed us to identify “Gaps in Care” or a discrepancy between using recommended best practices and the care that is actually provided. This information allows clinicians to work with individual patients who are most at risk. Our integrated data collection systems generate daily reports in real time with the most current metrics for those who need our assistance.

Our team was requested to present our methods and processes for effectively caring for high utilizer patients to United Healthcare nationally. In 2018, the LIFQHC was financially rewarded by our managed care organizations for significantly improved quality metrics. This is a pattern we plan to continue in our future.

Health Plan	Membership Counts
Affinity.....	1,907
Empire Healthplus.....	890
Fidelis Care	1,927
Health First.....	7,917
UHC.....	9,220

What We Have Learned

- 21,000 of our 33,000 patients are enrolled in Medicaid managed care plans
- Obesity is our most prevalent medical condition
- Hypertension is our 2nd most common medical condition
- We provided over 41,000 preventative encounters such as immunizations, pap tests, HIV tests, lead screenings and mammographies

- * Patient Satisfaction data vendor hired to survey patients in multiple languages
- * Women Infant and Children (WIC) services now under the LIFQHC umbrella

Community Health Advocates (CHA)

CHA are an innovative resource who assist patients in navigating the complex health care system as well as assist in solving billing issues, helping to understand health care reform and their health care rights.

In just one year, our CHA team:

- Completed 24,000 patient activation measure (PAM) surveys which determine a patient's engagement in their own healthcare
- A MetroCard program was implemented processing approximately 4,000 MetroCard applications for eligible consumers
- 340B Drug Pricing Program was expanded to include more local pharmacies
- The ProAct Prescription Discount Card Program for qualified patients was initiated at each health center
- The NUCARE program, providing access to healthcare for uninsured is now available at all locations

WIC - NYS Special Supplemental Nutrition Program for Women, Infants and Children (WIC)

WIC services are available at three LIFQHC sites. WIC in our Elmont location provided services to more than 1,000 participants* in October and November, the highest volume of participants on LIFQHC record. All told, our three locations provided services to over 5,100 families.

Since its inception, our Breastfeeding Initiation program now boasts the highest participation rate on Long Island.*

WIC provides breastfeeding support, nutrition counseling, health education, referrals, and nutritious foods to women, infants and children to safeguard the health and well-being of eligible families with young children.

**NYS Report CM015T, NYS Report CT055T*

Business Development

- Contracted with two school districts for two school-based Health Centers in Freeport and Westbury
- Opened an Oceanside location
- Contracted for an onsite pharmacy in the Roosevelt HC. Construction began in 2018.

We understand that medical care is only one of several factors that affect health outcomes, so we also focus on the social determinants of health (SDOH), such as living environment and access to healthy food, etc. To improve organizational efforts in moving toward value based quality outcomes, the Care Coordination division works directly with the Population Health team. More than ever we are partnering and collaborating closely with local school districts, community based organizations, housing providers, farmers markets, and transportation and employment partners.

- * Purchase of the Elmont Health Center property and complete interior renovation
- * Additional hours offered at all sites to include evenings and weekends
- * Management of the Roosevelt High School Health Center under LIFQHC
- * Freeport Health Center building is purchased

2017

2019 Goals

- Celebrate LIFQHC 10th Anniversary
- Finalize renovations at the Roosevelt site
- Complete new façade of the Elmont exterior
- Open second health center location in Hempstead
- Long term goals for LIFQHC: using Delivery System Reform Incentive Payment (DSRIP) Program funds designed to restructure the health care delivery system to reduce avoidable emergency room and hospital admissions
- Support our patients' efforts to improve on their health outcomes and goals. Improve HEDIS and move closer to Healthy People 2020 goals
- Use Value Based Payment models to shift resources to those in need
- Continue to partner with community based organizations to improve food security, housing, education, and income equality for those we care for
- Advocate/pursue funding sources:
 - Health Resources & Services Association (HRSA): seek a long term solution to the federal funding for Community Health Centers
 - Ensure that State and Federal support for uninsured continues and if feasible, expands to meet the growing needs of our communities (28% of patients are uninsured)
 - Seek new grants to support key programs and services that will build a stable foundation for the organization, while forging ahead to new opportunities
- Providing bedside follow-up for patients who need hospital care
- Improve health outcomes for patients and exceed national benchmarks
