

Our Story

Our Story

Since our inception in 2009 as Family Health Centers—Long Island FQHC, a non-profit organization, we have continually strived to create a healthier community one patient at a time by dedicating ourselves to providing the highest quality care to the largest number of people in Nassau County, including those who are typically underserved.

We embrace our past as we look towards the future, with clarity of purpose. To that end, we recognized that differentiating ourselves and advancing our mission would include a positive transformation to a new brand identity setting ourselves apart.

Growth, transformation, and adaptation to change are characteristics of all living systems - including organizations such as our healthcare system.

Make no mistake, our responsibility as a dedicated, responsible healthcare provider to our patients remains the same...so does our commitment and support of our community.

As our new brand identity suggests, a transformation has taken place...one that represents our desire for positive change and growth within our doors and within our communities.

Welcome to

HARMONY HEALTHCARE LONG ISLAND

Our Name

Meaningful, memorable, and distinctive...

Harmony Healthcare Long Island as our new name connotes the essence of who we are as healthcare organization...providing equitable, high quality healthcare in a friendly and harmonious environment.

Our Butterfly

The **butterfly** is one of the true beauties of nature which also possesses a significant number of symbolic meanings, with the most significant being transformation and change. Butterflies are also commonly used as symbols of life, perseverance, restoration and hope.

Many cultures associate butterflies with the soul, communal spirits, and a symbol of resurrection. At Harmony Healthcare Long Island, we believe this description encapsulates and embodies who we are as an organization...advancing our culture and commitment today and into the future.
